

CARDINAL FAMILY SINGERS

new cd: LOST AND FOUND AT SEA

release date: 2/14/06

Cardinal Family Singers "Lost And Found At Sea" is the melodic, layered, melancholic pop that makes headphones warm with stereophonic fidelity. This off-kilter crash of harmonic resonance comes from the duo of Norwood Cheek and Peyton Reed. Based in Los Angeles—by way of North Carolina—Cardinal Family Singers is a living room, telephone, 4-track, garage, home recording project. And on their self-released debut album, the duo spins an eleven-song narrative around the mysterious disappearance of a girl, supposedly and most probably swept out to sea one dark and stormy summer night. The multi-tiered sounds emanate, reflect and ripple on a well-crafted wavelength that builds, falls and rises again with each new track flowing into the next.

This is their first release as Cardinal Family Singers. The duo previously released two cd's under the moniker manCHILD.
